

MARKET ANALYSIS & LISTING PROPOSAL · OCTOBER 19, 2026

700 Amaretto Avenue

Pickering · Amberlea · Prepared for Brenda and John Liska

Prepared by **Terrence Marshall, CPA and Heaven Kaymen Joseph** · Your agents on this file
SYNERGY Real Estate Group · REAL Broker Ontario Ltd., Brokerage

Brenda, John — thank you for having us through. The short version first.

We bring a bin and a crew and empty the house. You lift nothing, and it costs you nothing. Then we clean it, inspect it, photograph it, and put it in front of buyers — five to seven days from the bin arriving to live on the market, and about two weeks from there to offers in hand. Everything that follows is the evidence behind the number, and the number is lower than you are hoping. We would rather tell you that now.

WHAT WE DO FOR YOU

Step one: we empty the house. You lift nothing and you pay nothing for it.

THE BIN ARRIVES FIRST. Before a single photograph is taken we put a bin on your driveway and bring a crew in to clear everything you are not keeping. That is a $3,000 to $4,000 job and we cover it.

From the bin arriving to the house being live on the market is five to seven days. From there to offers in hand is about two weeks.

STEP 1 — WE EMPTY THE HOUSE

The bin arrives — on your driveway, at our cost

Our crew clears the house — once you have taken out what you are keeping

Professional cleaning — every room, before a camera comes near it

STEP 2 — WE PREPARE IT

Pre-listing home inspection — paid for by us and given to every buyer

Professional photography — for MLS®, print and social

Video and drone — the lot is an asset — we show it from above

Floor plans — so buyers can plan the work before they offer

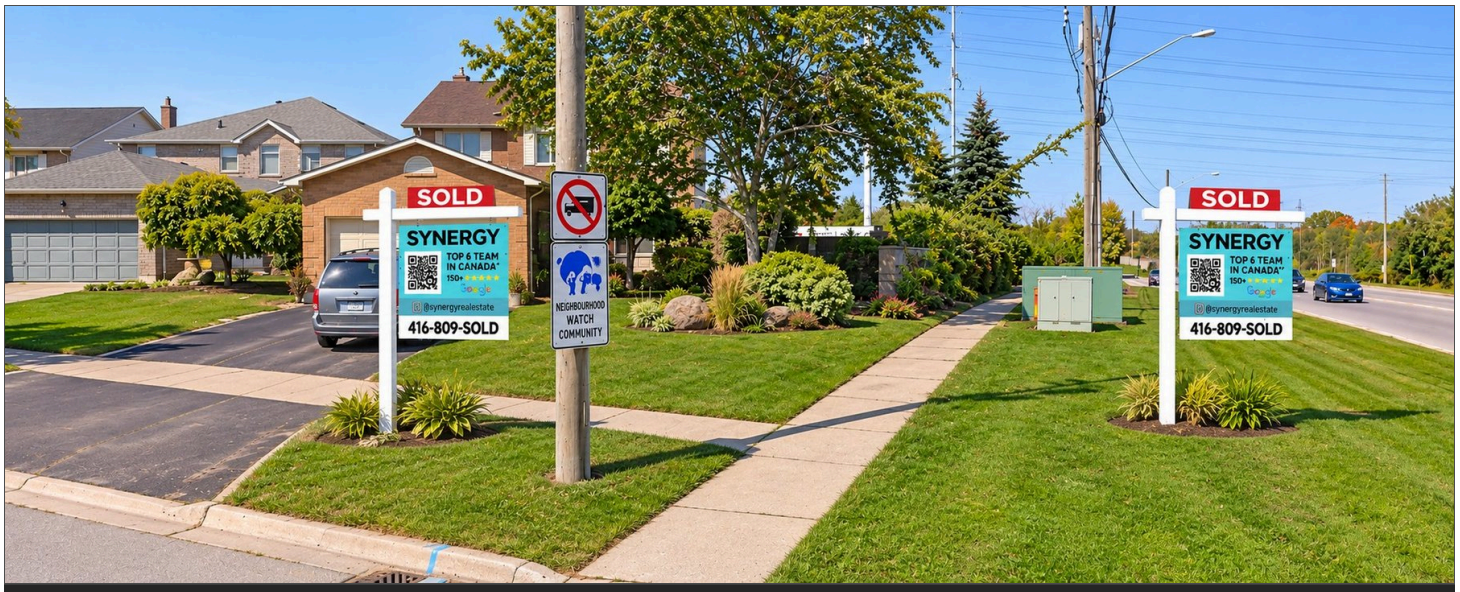

STEP 3 — WE LAUNCH IT

Live on MLS® and realtor.ca — and every major portal

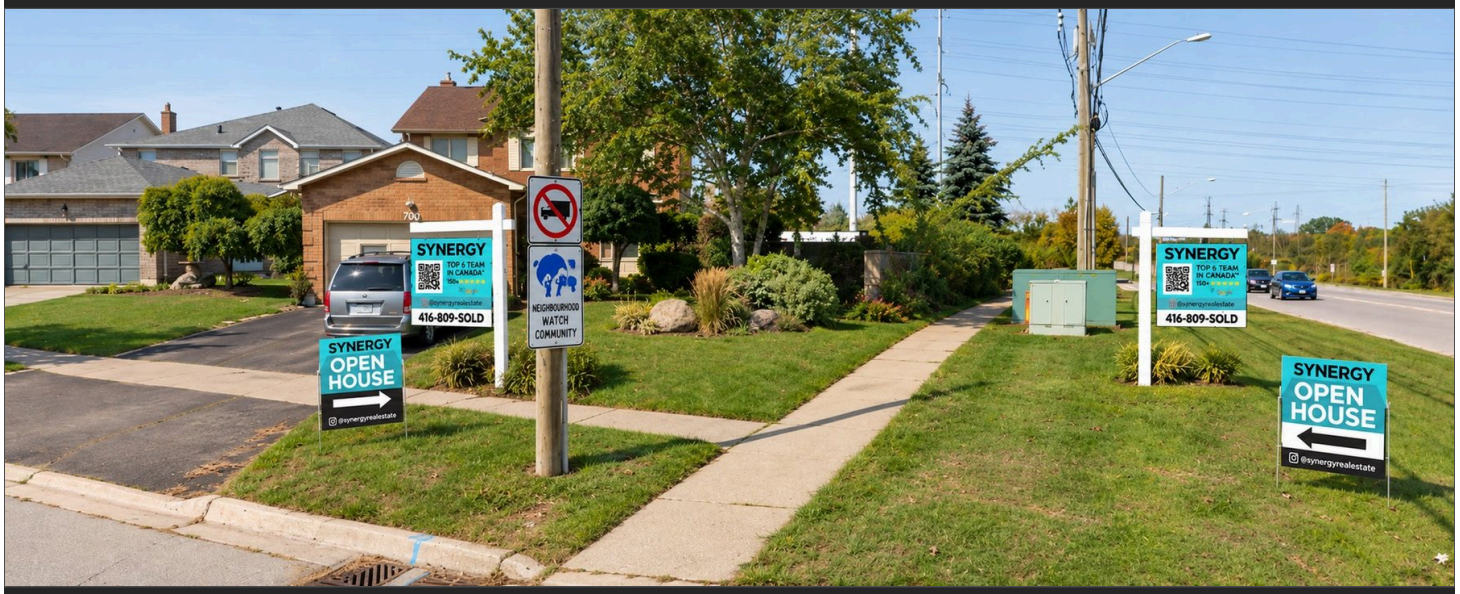

Paid campaign across six pages — aimed at Durham and east Toronto

Signage and open houses — both weekend days

Offers reviewed on a set date — buyers compete with each other, not with you

Your corner is why signage works here — two frontages and traffic on both.

Open house directional signs, both weekend days.

PROPERTY TOURS — HOW WE SHOW A HOME

Two of our recent listing tours, cut for Instagram, Facebook and YouTube. Each one is produced by the team before the home goes live and runs for the life of the listing.

Everything above — the bin, the crew, the cleaning, the pre-listing inspection, photography, video, drone, staging and painting — is handled by us and included in what we do. None of it is billed to you separately.

SECTION 01 · THE PROPERTY

2,473 square feet, built in 1984, original through most of the house.

The roof is about three years old — the one large item behind you. Most of the rest is original or deferred, and we would rather set it out plainly than let a buyer's inspector find it.

ABOVE-GRADE FLOOR AREA	2,473 sq ft — MPAC Residential Floor Area Report
LOT	12,195 sq ft (0.28 acre), irregular — corner, facing the road
BUILT	1984 · detached 2-storey
BEDROOMS / BATHS	4 · 2 full + 1 half — all three bathrooms original
GARAGE	Attached, 2 spaces — needs replacing. Side entrance from the garage
BASEMENT	Unfinished — and the side entrance does not currently reach it
2025 PROPERTY TAX	$7,291
ASSESSMENT	$566,000 (2026 phased-in, based on January 1 2016)
ZONING	S2 · abuts a hydro corridor
PIN	263710112 · Plan 40M1312, Lot 53

MPAC Residential Floor Area Report, Teranet GeoWarehouse® for PIN 263710112, and the walkthrough of October 19, 2026. Condition notes from the owners and that visit, to be confirmed.

A corner lot facing the road, with the hydro corridor behind. Both are priced into the analysis that follows.

The house, item by item

- Roof replaced approximately three years ago
- Air conditioning about five years · deck 2019 · foyer floors redone · water heater 2011, owned · some windows replaced
- Kitchen: newer stove, fridge and countertop; cabinets painted and peeling
- Three bathrooms original · windows from 2000 with moisture, mould and rusted frames · carpet 1999 · garage · 100 amp service · furnace and humidifier 2007 · living-room lighting
- Basement unfinished, no rough-in and no bathroom · laundry room incomplete inside a bedroom

SECTION 02 · THE MARKET RIGHT NOW

The market is past its peak. Volume is down a quarter and prices are down four to six per cent since the spring.

–25.7%

sales across the GTA, June peak to September · 6,506 down to 4,836

–4.1%

price per square foot since April — the measure that takes house size out

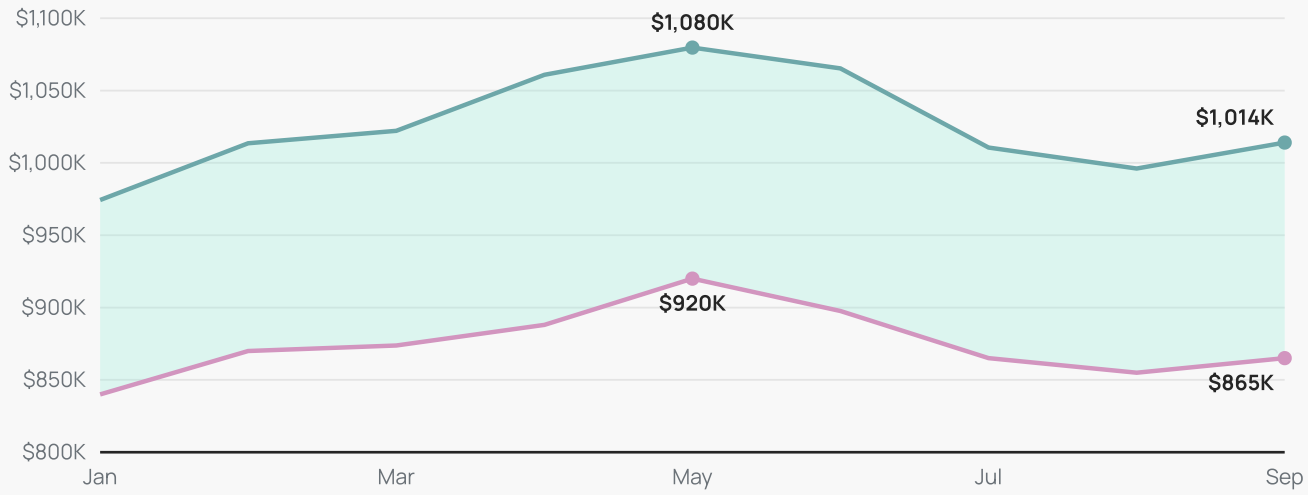

–6.1%

average sale price since May · $1,079,669 down to $1,014,045

5.14%

BMO five-year fixed, up 20 points on October 7, while the Bank of Canada held at 2.25%

GTA SALE PRICES BY MONTH, 2026 — AVERAGE AND MEDIAN

Average sale price — peaked in May, down 6.1% since

Median sale price, the typical home — peaked in May, down 6.0% since

SYNERGY's own MLS® extract, January 1 – September 30, 2026: 45,564 sales across 26 municipalities, freehold and condominium. The vertical axis starts at $800,000 rather than zero so the movement is readable.

This is the whole market, not one neighbourhood — 45,564 sales across 26 municipalities this year.

It peaked in the spring and has come down since. Volume is off a quarter from June. Price per square foot, which is the fairest measure because it takes the size of the house out of the comparison, is down 4.1% from April; freehold is down 4.3% and condominiums 5.7%. Average and median sale prices are both down about six per cent from May.

Borrowing has tightened at the same time. The Bank of Canada has held its rate at 2.25%, but a buyer's budget is set by the fixed rate, which is priced off the bond market rather than the Bank. Five-year yields rose through early October and lenders followed — BMO went up 20 points to 5.14% on October 7.

Pickering detached has held up better than the market as a whole, but it is one segment of it and it is not insulated from it. The direction of travel is the reason not to spend four months on renovations before selling.

SECTION 03 · THE COMPARABLE SALES

Seven sales set this price. One of them is the same house as yours.

These are the sales the valuation rests on. 658 Cognac Crescent is the same builder layout at the same 2,473 square feet — it carries more weight than the other six together.

SYNERGY's own MLS® pull, October 19, 2026, from PropTx MLS® data. Shortlisted from the full Pickering detached set to the sales that determine the valuation. Basement and condition read from each listing's own description. 560 Steeple Hill reports a 2,000–2,500 sq ft band rather than an exact figure.

SECTION 04 · WHAT THESE SALES TELL US

658 Cognac is your house. The rest show what condition and setting are worth.

658 Cognac Crescent — the same floorplan as yours

$1,025,000

2,473 SQ FT · IDENTICAL BUILDER LAYOUT · SOLD MARCH 2026

Two copies of the same house. Three differences: their basement is partly finished with a two-piece bath and a shower rough-in, yours is unfinished with neither; their home was liveable, yours is mostly original; they sit on an interior street, you face the road on a corner with a hydro corridor behind. **That $1,025,000 is what this floorplan fetches finished, on a quiet street, in a stronger market.** Section 05 works down from it to yours.

552 and 560 Steeple Hill

$900,000 and $860,000

SAME STREET, SAME YEAR, BOTH NEEDING WORK — AND BOTH WITH FINISHED BASEMENTS

552 asked $1,199,000, the price of a finished house, and took 111 days to sell at $900,000. 560 asked $849,000, said plainly it was sold as is, and was gone in six days above asking. Both had more finished space below grade than you do.

1911 Rosebank Road · Amberlea

$850,000

2,138 SQ FT · AS-IS · UNFINISHED BASEMENT · SOLD IN 7 DAYS

The closest match in condition — as-is, unfinished, pre-list inspection offered to buyers, contents left behind. It is 335 square feet smaller than yours, with no corridor and no road frontage.

692 Amaretto Avenue · four doors away

$1,020,000

2,655 SQ FT · SOLD IN 6 DAYS, JANUARY

You will have this number in mind, so here is what sits behind it. It is 182 square feet larger than yours, it sold in January when the market was at its strongest, and it showed well enough to sell in six days. At $384 a square foot it is still the lowest rate of any Amberlea sale this size — that is your street showing up in the numbers.

SECTION 05 · WHAT IT IS WORTH

Estimated market value.

The shaded band is the estimated value range; the dot is the midpoint.

Consideration	Effect on value
658 Cognac Crescent — the same floorplan, the same 2,473 sq ft, sold March 2026	**$1,025,000**
Market conditions since March: price per square foot across the GTA is down 4.1% from its April peak, and volume is off a quarter. Pickering detached has held flatter, so a restrained adjustment	0% to −3%
Your lot is larger and on a corner — though across 168 sales lot size barely moves price here	+$15,000 to +$25,000
Their basement is partly finished with a 2-piece bath and shower rough-in. Yours is unfinished, with neither, and the side entrance does not reach it	−$35,000 to −$45,000
Condition — the work to bring yours to their standard, not to renovate it	−$100,000 to −$130,000
Corner facing the road, hydro corridor behind; theirs is an interior street	−$40,000 to −$55,000
Cross-check — 552 Steeple Hill, within 1.5% of your size, needed work and still had a finished two-bedroom suite	$900,000
Cross-check — 1911 Rosebank, as-is and unfinished, but 335 sq ft smaller with no corridor	$850,000
Where it lands, at $344 per square foot	**$840,000 – $865,000**

$840,000 – $865,000

estimated market value · midpoint $850,000

suggested list range if pricing to value

Why this method. Comparing two copies of the same house and pricing the differences is the most reliable valuation there is. 658 Cognac gives us that, in your community, seven months ago.

Built from records and one visit — no rooms measured, no mechanicals inspected. An inspection could move it either way, which is why we pay for one before the house goes up.

What we list it at is a separate decision, and a strategic one. It is not the same number as the value, and it is the conversation to have in person. It is the first item under next steps.

SECTION 06 · WHO YOU WOULD BE COMPETING WITH

Nine homes your size are for sale. Not one is a project.

A buyer who wants a house to renovate, in Amberlea, at this size, has nothing to choose from right now. You would be the only one.

The finished homes are asking $1,095,000 to $1,100,000 — and the one out longest, at $1.1M, has sat 59 days and already cut its price.

0

2081 Lynn Heights Dr · Liverpool

$949,999

35 DAYS · POWER OF SALE · ORIGINALLY $1,064,900

Started at $1,064,900, has cut 10.8%, and is still sitting after 35 days. A compromised property priced near a million does not move here.

648 Cognac Cres · Amberlea

$949,900

18 DAYS · WELL KEPT, PREMIUM PRIVATE LOT

Two streets away and in better condition. If you price near a million, this is what a buyer compares you to.

1713 Kirkwood Lane · Amberlea

13 DAYS · LARGE LOT, SOME UPGRADES

A large lot with some upgrades, out under two weeks. Worth watching before we go live.

SECTION 07 · WHO BUYS A HOME LIKE YOURS

Two buyers, and both want exactly what you have.

The gap between a house that needs work and a fully renovated one at this size stands at **$150,000 and up** — and that is only the money. On top of it sit the carrying costs while the work is done, the months it takes, the stress of running it, and the risk that it costs more than planned or lands in a worse market.

Whoever buys this house takes all five of those on. That is what the price reflects, and it is exactly what you avoid by selling it as it stands.

The contractor or investor

They price the work rather than fear it. A 100 amp panel and a 2007 furnace are line items, and the roof already being done is what makes the file work. The side entrance from the garage, with room for a walk-up, is the detail that decides it. With nine listings your size on the market and not one of them a project, they have nowhere else to go.

The family renovating to stay

Trading up within Amberlea, often with parents to accommodate. They want the schools, a lot they can do something with, and a layout they can change. The land matters to this buyer in a way it does not to the market generally — across 168 sales, lot size barely moves the price at all.

Who will not buy it

The buyer who wants to move in and change nothing. They are served by the homes asking $1,095,000 and up. Chasing them is how a house ends up where 552 Steeple Hill ended up.

SYNERGY's own MLS® pull, October 19, 2026. Buyer types are drawn from what the comparable sales and current listings actually offered — bedroom and bathroom counts, second kitchens, walkouts and stated condition — not from assumptions about who lives in Amberlea.

OUR COMMITMENT TO YOU

We return more than our fee in value: honest advice, excellent service, and a team that does the work rather than describing it.

About us

Terrence lives a minute from this house. That decides how your listing gets run — one of us can be at the door for a showing on short notice, meet the bin crew, check on the place between appointments and stand in your driveway on both open house days. During the one week that sets your price, that matters more than anything else on this page.

SYNERGY Real Estate Group is a residential and light-commercial team under REAL Broker Ontario Ltd., Brokerage, with more than $500 million in sales behind it. Terrence is a REALTOR® and a Chartered Professional Accountant with nine years in the business; Heaven handles marketing production and buyer-side coverage. WHAT HAPPENS NEXT

A pricing strategy session first.

Nothing here commits you to anything. The valuation is in Section 05; what we *list* it at is a different decision, and a strategic one. That is the conversation to have together.

Step one · the pricing strategy session	Half an hour at your kitchen table. We go through this document, then the part that is not in it — what to list at, whether to set a date for reviewing offers, and how we bring several buyers through on the same weekend rather than waiting for one. There is more than one way to do this and the right answer depends on what matters most to you.
Step two · you decide what you are keeping	Walk the house and set aside what comes with you. Everything else is ours to handle.
Step three · we empty it	Bin on the driveway, crew in, professional clean. At our cost.
Step four · we prepare it	Pre-listing inspection, photography, video and drone, floor plans. Five to seven days from the bin arriving.
Step five · we launch it	Live on MLS®, open houses both weekend days, and offers reviewed on the date we agreed. You will hear from us throughout, not only when there is news.

From the day you say go, roughly two weeks to offers in hand.

— WHEN YOU'RE READY

Read it over, then let's talk it through.

There is no decision to make today, and take as long as you need with it. When you are ready, Terrence is a minute away. If you believe a sale is in your best interest we are glad to explore it together — and if the answer is to stay, that is a perfectly good answer too.
